One pound of sifted flour, seven ounces of good firm lard, nine ounces ounces of good firm lard, nine ounces of butter, one-half teaspoonful of salt, two gills of ice water. This quantity will make three ples of ordinary size. Rub the butter and flour lightly together, being careful always to keep the flour between the lard and the hand. Add the water, mixing with a knife. Place the paste on a floured board, using a very little extra flour; dot it all over with one-third of the butter; dredge a little extra flour over it, and, touching with the hands as little as possible, roll it up like a sheet of music. Divide it in two. Divide one of the halves into three parts for the bottom crust; roll these out and cover the ple Now roll the remaining pasts into a thin sheet. Dot it over with half the remaining butter; sift a little flour over it; lap the four corners toward the center; roll again thin; dot with the remaining butter; dredge with flour; fold as before, but do not roll out quite as thin. Roll into a thick scroll. To as thin. Roll into a thick scroll. To cover each ple cut one-third of the scroll; flour both ends, set on end and roll out until quite thin. Put three thin layers for one cover, instead of one thick layer, notching the edges together and trimming neatly. Always roll in the same direction, away from you. Bake in a quick oven.

tailor-made girl beware of disorder; in her it would cease to be artistic; it would simply be untidy.

Let her think for herself, act for herself, and express her own honest opinion. Individuality when combined with that nameless something called manner is the most potent weapon in the possession of the sex. It is this which has given many a homely woman a reputa-tion for beauty which a bona-fide beauty with faultless face and figure has sighed in vain to obtain.

Just now, with hens on a strike and eggs worth their weight in gold, dainties which can be concocted without eggs are much in demand. For instance, ice cream can be made without eggs, as follows: Two quarts milk, one pint cream, one-third box of gelatin, sugar and flavor to taste. More cream and less milk makes it still better. Heat a little of the milk to dissolve the gelatin in.

Another eggless but rich ice cream is made as follows: This is simply a rich vanilla cream, with chocolate grated coarsely into it at the last moment just before freezing. It will not turn dark like ordinary chocolate, but remains white with the little speckles of chocolate thruout.

The surgeon had put about his head a steel cage to hold the broken jaw in place until the bones could reknit. About 10 p. m. Lewis Payne, whose real name was Lewis Payne Powell, rang the bell of the Seward house, which was situated on the east side of Lafayette Square within a few yards of the White House. It was near where Gen. Sickles had shot Philip Barton Key, and was the house occupied by James G. Blaine for some years before his death. When the door of the Seward mansion was opened by the colored man Payne stepped in-side, holding a little package in his hand, which he said was some medicine sent by Dr. Verdi, the Secretary's physician, and which he had been directed to deliver in person in order to give directions as to how it was to be taken. The doorkeeper at first refused to allow him to go upstairs, but Payne pro-tested so vigorously against this that he was finally allowed to pass the top of the stairs he met Mr. Frederick Seward, to whom he told th same story, but Mr. Seward refused to let him pass. Payne then started as if to go down the stairs, but turned suddenly and struck Mr. Seward, knocking him down. Serg't George F. Robinson

## Lincoln's Gettysburg Address

THE ONLY AUTHORIZED OFFICIAL VERSION

War Department Design Reproduced on Handsome Postal Card A Beautiful Patriotic Souvenir Artistically Executed

In response to a request by the Grand Army of the Republic, Congress has enacted that Lincoln's Immortal Gettysburg Address shall be placed on conspicuous tablets in every National Military Park and National Cemetery. The War Department has prepared the design for this tablet. It is exceed-

ingly beautiful, simple and effective. THE NATIONAL TRIBUNE has had the opportunity of being the first to reproduce this, and it now offers it in a handsome and artistically executed Postal Card, which will be welcomed by patriotic people everywhere.

It is the only absolutely correct version of the inspired words, which will be read with swelling hearts as long as the language is spoken. Other versions are marred by more or less trifling variations and errors which detract from the simple majesty of Lincoln's words. The text given is the result of long study and comparison of the various versions.
